

ICONS

INTELLIGENT CONNECTIVITY SYSTEM

FOR INSIGHT

The Internet of Things provides more comfort and agility, both in our daily lives and in industry. Machines are communicating, and so is your compressed air equipment.

However, you are not in the business of data processing. What you need is insights. Insights on the performance and service status of your compressed air equipment, that will give you maximum uptime and efficiency.

FAST AND EASY

On the ICONS interface, the information you need is right there, easy and clear: machine health, uptime and energy efficiency. If an action is required, it shows up immediately. An easy overview of the service needs of your machines enables you to plan maintenance efficiently.

TAILOR-MADE VALUE

The data from your machines are analyzed using smart algorithms and our compressed air expertise. This results in recommendations on ICONS, showing real opportunities to improve machine availability and reduce your energy costs.

Site visits are more efficient than ever. Our expert analysis enables us to spot potential problems early, so we can intervene before the risk of a breakdown becomes real.

ANYWHERE, ANYTIME

All the insights offered by ICONS are available on your computer, tablet or smartphone. There is no need for service logbooks: a mouse click is all it takes to consult the service status of your compressor online. A link takes you directly to your compressor supplier for a service quote request. It's fast and easy, and it's always there when you need it.

RIGHTIME

- Always knowing the right time for service, so you can plan your resources and costs efficiently.
- Get an easy overview of machine status and events.
- Direct access to your supplier for a quote request makes your life easier.
- RightTime is our free standard ICONS offering.

UPTIME

- All RightTime features are included.
- Machine warnings are sent as email and/or text message, enabling you to take corrective action and avoid a breakdown.
- Consult all events and get a clear overview of machine availability performance.

ENERGY

- Offering additional insights on the energy efficiency of your compressed air system.
- Reports showing performance indicators, benchmarks and trends.
- Make informed decisions to optimize your compressed air installation.
- Reach your energy saving targets.
